

Re: Declaration of Banned Chemical Substance "PFOS"

(PFOS: Perfluorooctane sulfonate and its salt)

To : **ASAT Semiconductor (Dongguan) Limited**

Dear Sir :

We the undersigned hereby certified that the product of **Solder Ball** with **Composition: Pb-free 96.5Sn/ 3.0Ag/ 0.5Cu** delivered by our company to **ASAT Semiconductor (Dongguan) Limited** does not contain the banned chemical substance "PFOS" in concentrations greater than the listed Threshold Level as per ASAT's relevant specifications.

Threshold level	- 1000ppm (for each homogeneous material) Note: For coating, the amount of PFOS less than 1µg/m ² is allowed.
Exempt uses	- Photoresists or anti reflective coatings for photolithography processes, - Photographic coatings applied to films, papers, or printing plats. - Mist suppressants for non-decorative hard chromium plating and wetting agents used in controlled electroplating systems where the amount of PFOS released into the environment is minimized by fully applying relevant best available techniques.

The undersigned is a duly authorized representative of this company.

Company : **Profound Material Technology Co., Ltd.**
